

Australian owned & made means you get superior products backed by our reliable team of technicians right here in Australia

SafeCare®

Australia's Best Selling Low Level Bed

Created by Unique Care, the SafeCare® Floor Bed combines the most advanced safety features with a modern streamlined design. Currently the lowest floor bed available on the market with a lowered height of only 75 mm to assist in reducing the severity of injury from bed falls.

This visually appealing design combines the highest quality components and workmanship with our consistently competitive prices.

By buying the Proudly Australian Made SafeCare® Floor Bed direct from our factory floor you get the maximum benefit of our lean production costs, the technical and aesthetic qualities and ultimate after sales service.

➔ The Unique Difference

- **Slimline low fixed height** columns designed to prevent injury to feet and fingers when raising and lowering the bed.
- When the Mattress platform is raised, our **slimline low fixed height** end columns remain at the same **low fixed height** position so they don't obstruct your view of the resident (see photo **A**).
- Our **slimline low fixed height** columns **do not raise or lower**, eliminating the risk of damage to bed by trapped objects or injury to staff or visitors.

➔ BEWARE OF FLOOR BEDS THAT HAVE MOVING / BULKY END COLUMNS

Bulky moving columns may jam and break and cause injury to hands and feet as they travel up and/or down

Bulky moving columns may obstruct visual monitoring of residents especially when in the raised position

Bulky moving columns may impede residents' view of their surroundings and increase their sense of isolation
